

## **REMARKS**

After entry of this amendment, claims 25-69 will be pending for the Examiner's review and consideration. Claims 25-31 have been amended and new claims 39-69 have been added. Support for amended claims 25-31 may be found in the originally filed specification and claims. Specifically, support may be found, *inter alia*, on page 2, paragraph nos. 23, 24, and 59. Support for new claims 39-69 may be found, *inter alia*, on page 2, paragraph nos. 23, 24, 59, 62 and 63, as well as tables 24-26. No new matter has been added. Reconsideration and allowance of the present application in view of the above amended claims and the following remarks is respectfully requested.

### **I      REJECTION UNDER 35 U.S.C. SECTION 112, FIRST PARAGRAPH FOR LACK OF ENABLEMENT**

The Examiner rejected pending claims 25-38 under 35 U.S.C. §112, first paragraph, because the specification allegedly does not enable a person of ordinary skill in the art to make and/or use the invention commensurate in scope with these claims. In particular, the Examiner contends that although the specification is enabling for the specific formulations prepared which resulted in the concentration versus time curves of Figures 14-17, the specification does not reasonably provide enablement for any means of providing the said curve. Applicants respectfully disagree.

Without agreeing with the examiner and merely to expedite prosecution, claims 25-31 have been amended herein to recite the formulations prepared which resulted in the respective concentration versus time curves mentioned. In view of the foregoing and Examiner's acknowledgement that the specification is enabled for the specific formulations prepared which resulted in the concentration versus time curves depicted, withdrawal of the above-identified rejection and allowance of independent claims 25-31, as well as their respective dependent claims, is respectfully requested. Applicants believe that new claims 39-69 are enabled for at least the same reasons and thus, allowance of new claims 39-69 is similarly respectfully requested.

## II CONCLUSION

It is respectfully requested that the above amendment and remarks be entered into the file of the application. Should any fee be required, please charge such fee to Jones Day Deposit Account No. 503013.

Respectfully submitted,
